

Introducing the **Net Zero**

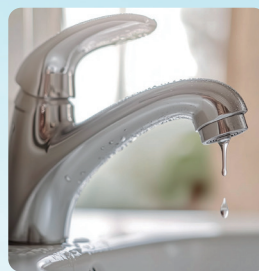

GB Energy Solar Partnerships programme

A team of net zero experts are working to help your school/college save energy and reduce carbon use - because every little step helps protect our planet.

We're checking things like yours windows, roof, heating and lighting and reducing waste across electricity and water.

**LET'S MAKE
A DIFFERENCE
STARTING
RIGHT NOW**

How YOU Can Help...

**Turn off the tap after
you wash your hands**

**Walk or cycle to
school/college**

**Switch off the
lights after you
leave a room**

**Recycle your
waste**

WHAT IS NET ZERO?

Net Zero means balancing the harmful gases we make (like carbon dioxide) with the amount we remove. **This helps fight climate change and builds a greener future.**
